CO₂ emissions reduction already achieved since 2011	tons CO₂ saved by using digital press	liters of water saved per year by using efficient washing methods	flight tickets donated by Flying Blue members to NGO's
IN THE AIR	ON BOARD	ON THE GROUND	IN THE WORLD
<p>Improving fuel efficiency and reducing noise with our climate action plan which focuses on:</p> <ul style="list-style-type: none"> • fleet renewal; • operational efficiency (use lighter weight equipment to reduce weight, optimize the use of airspace and apply fuel efficient procedures); • sustainable biofuels; • carbon compensations (regulatory & voluntary). 	<p>Using high quality products and services that reflect our sustainable strategy:</p> <ul style="list-style-type: none"> • introducing paperless cockpits and cabins including reducing paper newspapers on board; • responsible catering; • circular economy with recycling and reusing headphones and old uniforms; • offering passengers the opportunity to offset CO₂ emissions. 	<p>Focusing on efficient resource and energy usage and recycling:</p> <ul style="list-style-type: none"> • using efficient aircraft washing techniques; • reducing residual waste and increase percentages recycled; • reducing CO₂ emissions in ground operations and energy efficiency improvements by upgrading equipment, using sustainable energy and using electrical ground vehicles. 	<p>Adding economic and social value in areas we operate in:</p> <ul style="list-style-type: none"> • donating tickets to NGO's and start-ups; • financial support to community projects; • environmental projects such as reforestation; • creating an optimal working climate for our employees including initiatives for interns and young professionals.

TRAVEL SHOULD ALWAYS BE FUTURE FOCUSED

Business travelers fly all over the world. And every day, they realize how beautiful and vulnerable our planet is.

As airlines, we sense an even greater responsibility towards social and environmental topics. Air France and KLM are proud to be leading airlines on these matters for years: **we've been listed at the top of the Dow Jones Sustainability Index Europe and World for 14 times now.**

We're committed to reducing our CO₂ emissions per passenger per km by 20% by 2020 compared to 2011. And, we are always looking for more sustainable solutions. For everyone involved, but most importantly - for all future travelers.

This overview contains examples of our sustainable efforts and achievements. Get the full overview and detailed CSR information on the [Air France](#) and [KLM](#) website.
